INTRODUCTION

NEW X SERIES

PERLISTEN PROUDLY INTRODUCES THE NEW X SERIES

Our most versatile loudspeaker lineup. The X models offering both on-wall and in-ceiling. Each speaker embodies Perlisten's high-performance heritage for accessible price level, and is inspired by our acclaimed S, R, and A Series.

The new X Series brings the Perlisten Perceptual Listening Experience into every room of your house.

The X5, X3, and X2 models feature aluminum construction, molded ABS baffles, and integrated waveguides, whereas the X2ic combines ABS with steel.

Easy installation

For convenient installation, the X Series uses a unique isolation bracket: mount and level the bracket on the wall, then slide the speaker into place and secure it with four front-facing isolation bolts. A 15° angle bracket is also included for flexible positioning, ideal for the center channel, front wides, surrounds, or top speakers.

A distinct sonic signature
shaped by science

Tweeter
Mounted in a custom waveguide inspired by the A Series, paired with a proprietary 38mm silk dome tweeter.

Woofers
Proprietary 5.5" (140mm) carbon fiber woofers, newly designed for this series.

Versatility
The X-Series adapts effortlessly to any environment — whether as part of a 2-channel audiophile system, flanking a TV, in immersive music or cinema setups, gaming, or delivering background audio anywhere in the home.

FLAGSHIP

(X5w

THE X-SERIES TOP MODEL

The X5 leads the X Series with outstanding performance, delivering the most precise vertical and horizontal control in the lineup. It stands as the series' most capable model.

Enclosure Alignment

3-way Acoustic Suspension

38mm Silk Dome tweeter

In a custom waveguide for controlled vertical and horizontal wide dispersion

5.5" Carbon Fiber Woofers

4 units – two with high excursion

Sensitivity

92dB 2.83v@1m

Impedance

4 Ohms

Frequency Response

60Hz-30kHz

Recommended Amplifier Power

50 - 200 watts

Dimensions

Height: 740 mm

Width: 200 mm

Depth: 100 mm

Weight

20 kg

Finishes

Satin Black or Satin White

Includes mounting bracket, angle bracket and grill

ALL AROUND

COMPACT STEREO

The X3 is perfectly sized for compact stereo and immersive audio setups. Its dual woofers flanking the tweeter provide precise vertical and horizontal dispersion. Positioned between the X5 and X2, it offers the ideal balance of performance and versatility.

Enclosure Alignment

2-way Acoustic Suspension

38mm Silk Dome tweeter

In a custom waveguide for controlled vertical and horizontal wide dispersion

5.5" Carbon Fiber Woofers

2 units

Sensitivity

89dB 2.83v@1m

Impedance

4 Ohms

Frequency Response

60Hz-30kHz

Recommended Amplifier Power

50 - 200 watts

Dimensions

Height: 450 mm

Width: 200 mm

Depth: 100 mm

Weight

9 kg

Important

The X Series will soon be expanded with the new X3iw (In-Wall) model

Finishes

Satin Black or Satin White

Includes mounting bracket, angle bracket and grill

Recommended Amplifier Power

50 - 200 watts

Dimensions

Height: 330 mm

Width: 200 mm

Depth: 100 mm

Weight

7 kg

Finishes

Satin Black or Satin White

Includes mounting bracket, angle bracket and grill

THE INVISIBLE

TWO-WAY IN-CEILING SPEAKER

Finally, Perlisten has created a two-way in-ceiling speaker to capture the rest of the house. This speaker is unique as it builds upon the wave guide of the A-Series which offers wide dispersion and excellent on and off axis response that Perlisten is known for. This isn't your typical in-ceiling multi-room audio speaker. This is Perlisten through and through trickled down from our famous in-ceiling top speakers in the S and R series blended with the A-Series value.

2-way Infinite Baffle

38mm Silk Dome tweeter

In a custom waveguide for controlled vertical and horizontal wide dispersion

6.5" Carbon Fiber Woofer

1 unit

Sensitivity

90dB 2.83v@1m

Impedence

4 Ohms

Frequency Response

60Hz-30kHz

Recommended Amplifier Power

50 - 200 watts

Dimensions

Width: 165 mm

Finishes

Satin Black

Includes White paintable metal grill
